doctorVet
therapy laser

doctorVet is portable, easy to use, and provides solutions throughout your practice. Ask yourself, "Would this case benefit from pain management and bio stimulation?"

Chronic Pain Management	Acute Pain Management	Wound Healing	Infections	Post Surgical
<ul style="list-style-type: none"> Arthritis Spondylosis IVDD Hip Dysplasia Tendonitis Lameness 	<ul style="list-style-type: none"> Sprains Strains Lameness Road Traffic Accident Tendonitis 	<ul style="list-style-type: none"> Open Flesh Road Rash Incisions Bone Fractures 	<ul style="list-style-type: none"> Otitis Rhinitis Sinusitis Infectious Tracheo-Bronchitis Anal Sacculitis Perianal Fistula Cystitis Inflammatory Bowel Disease 	<ul style="list-style-type: none"> Orthopedic Recovery Incisions Pododermatitis Dental Extractions Extensive Soft Tissue (edema reduction)

And how often should you treat each of these conditions?

Match the color-code next to the condition to the regimen below.

Continuous Regimen	Front-Loaded Regimen	Single Treatment	Maintenance Regimen
Every other day 4-6 treatments (or as often as they come in)	3 Treatments in Week 1 2 Treatments in Week 2 1-2 Treatment in Week 3	Immediately Post-Op (can also be useful for 1 Pre-Op treatment)	1 Tx every 4- 6 weeks (depends on activity/ obesity/ progress)
